

FusionStorm Delivers Expanded Services for Massively Multiplayer Online Gaming

Advancing the state of hosting with dedicated and cloud based solutions for the Massively Multiplayer Online Gaming (MMOG)

San Francisco, CA – March 1, 2011 — FusionStorm – the leader in massively multiplayer online gaming industry's (MMOG) hosting will participate in the Game Connection@GDC event, 8th edition, being held at the Moscone Center in San Francisco, USA, from March 1-3, 2011.

FusionStorm is the leader in MMO game hosting. It further strengthened its hosting services' offering by announcing the general availability of the IT Xpress Cloud. The new offering extends FusionStorm's existing *IT Xpress* hosted solutions being delivered to customers since 2005. With this introduction FusionStorm is expanding its presence in this market by serving MMOG providers whether they are ready for cloud or need cost-effective dedicated hosting.

FusionStorm will be in attendance at the Game Connection@GDC event, 8th edition, being held at the Moscone Center in San Francisco, USA, from March 1-3, 2011 where its representatives will personally meet with game publishers and explain how its rich portfolio of hosting services helps them in reducing the time to revenue and reducing their risk with no capital purchase. Customers will also learn how having the flexibility to fit any small or large deployment needs FusionStorm's hosting services allows them to not only focus on developing titles in less time but also to deliver the best response times and experience to their gaming players by leveraging our world class connectivity to the Internet.

According to FusionStorm CEO and Founder, John Varel, "the IT Xpress and IT Xpress Cloud solutions represents a huge leap forward for our MMOG/online gaming customers as these give them flexibility and choices in the creation and scaling of their infrastructure that is easy to purchase, fast to deploy and grow and reduces risk. We help them focus on their business of developing and publishing game applications while we provide an optimal IT infrastructure suitable for delivering on their business goals."

Pricing for different usage models is available.

Availability

FusionStorm IT Xpress dedicated hosting is available today in both U.S. and European data centers. IT Xpress Cloud is available today hosted in FusionStorm's U.S. West (Las Vegas) data center, but will also be available in their U.S. East and European data centers in Q2 of this year.
